(PROPOSED NOTICE)

NOTICE

25X1A

SUBJECT: Determination of Career Designations

1. General

In order to fix responsibility for the career planning of Agency personnel, all career employees, defined as Staff Employees and Staff Agents, will be given a "Career Designation". This Notice outlines criteria and procedures for the initial assignment of Career Designations to all Staff Employees. Career Designations will be subsequently assigned to Staff Agents under a separate procedure, and permanent policies and procedures for establishing, recording and changing Career Designations will be prescribed in a forthcoming Agency Regulation.

2. Principles

a. Criteria for Making Initial Career Designations

(1) The Career Service Program is predicated on the placement of career employees under the Career Service Board which corresponds to the type of work officially assigned. This basic principle will normally apply in the assignment of Career Designation.

(2) An employee may be assigned the Career Designation of an Office other than the major component to which he is attached in order to reflect more nearly the nature of the employee's long-term employment.

(3) Career employees will be given an opportunity to express their personal preference in the determination of initial Career Designations. Although an expression of personal preference will not necessarily control the final assignment of an individual's Career Designation, it will be given full consideration. In making the initial Career Designation, an individual shall be assigned to his present Office Career Service Board if he expresses a desire to continue under its jurisdiction and is acceptable to his Office Board.

(4) In doubtful cases concerning clerical personnel, consideration will be given to assigning them the same Career Designations as that designated for their supervisors.

(1) The Assistant Director (Personnel) will provide the Head of each of the five major components with a roster of all Staff Employees officially assigned to Tables of Organization under his jurisdiction through 24 April 1953. These rosters will be arranged by Office and will indicate each individual's name, grade and position title.

(2) It is requested that these rosters be returned to the Assistant Director (Personnel) by 22 May 1953, showing appropriate tentative Career Designations.

(a) Staff Employees who have separated or have been reassigned to another component, subsequent to the preparation of the listing, will be noted accordingly on the roster.

(b) All names appearing on a roster that should be referred to another component for the assignment of Career Designations will be checked and the appropriate Office identified.

(c) If there is any Staff Employee listed on a roster for whom a Career Designation cannot be determined and if there does not appear to be another component that can recommend a suitable Career Designation, the individual's Career Designation will be stated as undetermined by use of the symbol UD.

(3) Arrangements will be made by each of the five major components for informing individuals within their jurisdictions of the tentative Career Designations assigned to them. Employees will also be informed of their subsequent right to initiate a request for change in Career Designation. Within the limits of time available for preparation of the rosters, the proposed Career Designations will be discussed with the Staff Employees concerned prior to listing the Career Designations on the roster in order that individual preferences can be stated at that time.

(4) In cases of disagreement between organizations within one of the five major components, concerning an individual's official Career Designation, it shall be determined by the Head of the major organizational component.

(5) In addition to the listing specified in ha(2), above, each of the Heads of the five major components will submit a supplementary Listing containing the names of employees who are currently assigned to another of the five major components, but who, in the opinion of the major component Head, should receive a Career Designation in his

If two or more components have divergent opinions concerning the assignment of an employee's Career Designation, the Assistant Director (Personnel) will coordinate the issue between the components involved.

(7) Following the action prescribed in paragraph (6) immediately above, the Assistant Director (Personnel) will transmit supplemental listings covering such cases to the major organizational components involved. Each component will advise the Staff Employees under its jurisdiction of their Career Designations.

b. Career Employees Entering on Duty 27 April and Thereafter

(1) Beginning on 27 April 1953 and thereafter, the Assistant Director (Personnel) will assign and record an appropriate Career Designation for each new Staff Employee entering on duty.
